

PROMOTE MSc – PROvide MOTivation Through Exciting materials in Maths and Science Outputs

- **Booklet**
 - Nature: Summary and index
 - Volume: 20-50 pages
 - Content: a short description of objectives and aims of the project, a full index of materials produced and collected by the partner institutions
 - Languages: DE, EN, CZ, SK, optional : FR
 - Target group: Mathematics and Science teachers in schools and other education institutions in the participating countries and other European countries
 - Partner contributions: Short description and index will be produced at a co-ordinator's meeting in EN. Each partner then provides the translation in his/her respective language. Actual publishing will be done by an external subcontractor, co-ordinated by one of the participating institutions, to be decided at a co-ordinator's meeting with respect to price and convenience

- **Portfolio file**
 - Nature: Materials to be used in teacher training and teaching in school
 - Volume: depending on amount of material collected and created, several hundred pages
 - Content: The complete curriculum material collected and created by the partner institutions
 - Languages: the respective language of the partner institution that collected/produced the material. As per request of target group members, translation of the requested materials will be provided in DE, EN, CZ, SK
 - Target groups: Mathematics and Science teachers in schools, university teachers lecturing in teacher training courses, students of teacher training courses
 - Partner contributions: Each partner institution will collect materials in a national workshop and via email and provide a short summary in EN. A co-ordinator's meeting will determine what additional materials have to be produced to cover the full range of the subjects, and which partner institution has to provide what part of those materials. Each partner institution will also provide a translation of part of the nationally collected/developed materials at request in his/her respective language

- **CD-ROM**
 - Nature: Materials to be used in teacher training and teaching in schools
 - Volume: CD-ROM, several 100 volumes to be distributed
 - Content: Part or all of the material collected and created by the partner institutions, as will be decided in a co-ordinator's meeting after the collection/creation process
 - Languages: EN, as per request DE, CZ, SK
 - Target groups: Mathematics and Science teachers in schools, university teachers lecturing in teacher training courses, students of teacher training courses, optional: school children
 - Partner contributions: See portfolio file for the partners participating in the content and translation. Publishing ("burning") of the CD-ROM's will be done in one of the partner institutions

- **Web-Page**
 - Nature: Summary, index, materials to be used in teacher training and teaching in schools
 - Volume: n/a
 - Content: a short description of objectives and aims of the project, a short description of the project participants, a full index of materials produced and collected by the partner institutions, sample material as to be selected by a co-ordinator's meeting
 - Languages: DE, EN, CZ, SK

- Target groups: Mathematics and Science teachers in schools, university teachers lecturing in teacher training courses, students of teacher training courses, optional: school children
- Partner contributions: See portfolio file for the partners participating in the content. The web page will be administered by the co-ordinating institution (AT)
